- (a) Who will care for the puppy in the main
- (b) What house rules do you plan for your dog? Where will it sleep and will any rooms or furniture be off limits?
- (c) Do you believe in 'crate training' i.e. have a special den or cage for the pup which he can call his own space?
- (d) How many hours per day will the pup be left alone?

Things to think about – Please comment

Puppies love 'gardening' digging and de-heading flowers

Furniture may get chewed, towels, toys etc.

Exercise – your pup will require about 1 hour per day after he is 6 months old (including wet snowy cold days and school holiday)

Puppy Socialisation classes.

Basic training for dog and owner.

Grooming, including maintenance and Trimming.

Vaccinations health checks & vets fees insurance.

Purchases for the puppy i.e. crate home and car.

Holidays and days out.

Things to note

Our Puppies will not be docked (it is now illegal) but it will have all dew claws removed. The puppies are all home reared, socialised with Adults, children, cats and our other Welshies. At 8 weeks old they are usually well on their way to be 'paper' trained.

Puppies will be ready to go to their new homes at 8 weeks old I will provide a puppy information pack for the puppy along with food for a few days if required, details of any worming that has been completed and a five generation pedigree, Health information, Contract of Sale and the Kennel Club Registration Certificate, signed and ready for you to change the ownership with the Kennel Club and activate the free insurance.

We will provide full support throughout the lifetime of the dog and will provide help with re-homing if required in the future.
